

Your stakeholders have questions and the answers are on your website, but getting them to the right page with the correct answers isn't always easy. It's time to...

Let Ai work for you

An AI chatbot improves website efficiency by providing instant and personalized responses, reducing manual support efforts, and enhancing user experience.

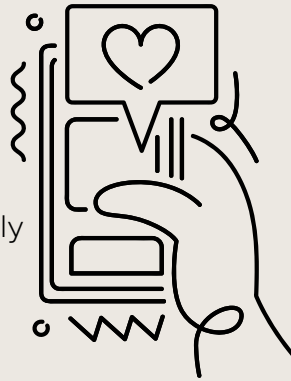

Customer Centric

Every student, every family and every district is different, so we train the AlwaysOn Ai to work specifically for you. Whether your district is

- Launching a new website
- Experiencing a change in demographics
- Preparing for a bond election
- Needing to communicate more directly or
- Reclaiming the narrative from social media

The AlwaysOn product is customized to you. We lean in, listen and help your team understand your community. Our Ai is constantly learning to answer readily available questions from your website. This allows your staff more time to dedicate to high-quality, personalized interactions.

Mission Focused

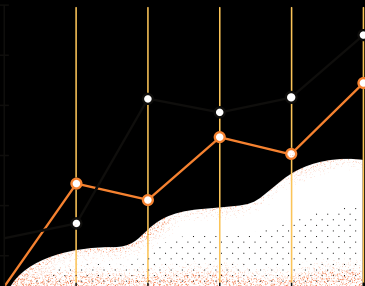

Education is what we do!

At AlwaysOn our mission is to help stakeholders on your school website get answers, find information, and feel supported

24/7/365

Our Ai is trained to only answer questions sourcing your district's website ensuring a safe, accurate response every time.

Data Driven

You will know the total number of engagements and all questions that people have when they visit your website.

AlwaysOn analytics provide you with a better picture of stakeholder needs allowing you to respond quickly and accurately.

User Friendly

- No staff time required for maintenance & support
- Dedicated Customer Success Manager included
- Chatbot can be live on your site within 24 hours
- Turnkey product
